Information Disclosure Statement

The information disclosure statements filed February 5 and February 19, 2004 have been considered and have been made of record.

Response to Amendment

In view of the applicants' response/amendment filed January 29, 2004 the judicially created doctrine of obviousness-type double patenting rejection over USP 6,498,224 to Odle has been withdrawn because Odle does not claim a method for the synthesis of an activated bisimide by reacting 4-halotetrahydrophthalic anhydride with a primary amine having the formula A-NH₂ to yield an N-substituted 4-halotetrahydrophthalimide wherein A is a group which activates the tetrahydrophthalimide ring system to aromatization as instantly claimed.

However, claims 1,10,20 and 31-35 are subject to a new ground of rejection under 35 USC 112, second paragraph.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1,10,20 and 31-35 are newly rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 10, 20 and 31-35 the substituent "S" has not been defined in the structural formulae for the "activated 4-halophthalimide (V), with a disodium

salt of a dihydroxy compound having the structure HO-S-OH and the activated bisimide (VI, (XII) and the dianhydride denoted by the formula (VIII).

Clarification is requested.

Claims 2-9,11-19,21-30 and 36-41 are allowed.
